DESCOCEPT SENSITIVE WIPES

DESCOCEPT SENSITIVE WIPES

DESCOCEPT SENSITIVE WIPES XL

DESCOCEPT SENSITIVE WIPES are alcoholic, ready to use wipes for disinfection and cleaning of medical devices and medical inventory as well as all kind of surfaces, especially sensitive surfaces in near patient areas.

DESCOCEPT SENSITIVE WIPES feature a patented folding technology with an optimal ratio of non-woven fleece material to impregnating solution. This ensures a quick and effective disinfection, while also being gentle on sensitive surfaces and materials.

Our **DESCOCEPT SENSITIVE WIPES XL** are convenient and time-saving. They can be used everywhere and their larger size makes them ideal for disinfecting large surfaces around the patient.

DESCOCEPT SENSITIVE WIPES are the sustainable solution made from 100 % biodegradable non-woven. The non-woven fabric, made from renewable raw materials, gives greater absorption and more efficient cleaning performance. The improved nonwoven allows optimal delivery of the impregnating solution, sufficient for an area of over 2 m² per wipe. The biodegradability of our non-woven fabrics is certified to the European standard EN 13432.

Both DESCOCEPT SENSITIVE WIPES (also with DESOTEX Bio fleece) and **DESCOCEPT SENSITIVE WIPES XL** are effective against bacteria, yeasts (including Candida auris) and enveloped viruses. **DESCOCEPT SENSITIVE WIPES** products are also suitable for reprocessing disinfectant dispensers made of anodized aluminium.

APPLICATIONS AND NOTES

3 / 10

Range of application

Acc. to Biocidal Products Regulation (BPR)

Rapid disinfection and cleaning of alcohol-resistant medical inventory and all types of surfaces, mainly in near patient areas. Suitable for use in the food sector.

Intended purpose acc. to EU Medical Devices Regulation

For disinfection and cleaning of surfaces of non-invasive medical devices with mechanical action for professional users.

Further areas of application

In addition to the medical sector also suitable for the food sector and large canteen kitchens as well as for industry and public facilities.

Application

Wipe surfaces with DESCOCEPT SENSITIVE WIPES until completely wet and keep wet for the entire contact time. Visible soiling must be removed before disinfection.

According to the EU Medical Device Regulation, users/patients are obligated to report any serious incident that has occurred in relation to the device to the manufacturer and the competent authority of the EU Member State in which the user/patient is established.

Application notes

Shelf life after opening: 42 days

Composition

100 g solution contain: 45 g ethanol.

Material compatibility

Wide range of applications on surfaces and medical devices.
(see page 5 - 8)

Product status

Dual Registration (medical device/biocide)

Precautionary and hazard statements

Flammable liquid and vapour. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Dispose of contents/container to approved disposal company or local collection.

For professional use only by personnel with corresponding specialist knowledge according to national directives.

Use disinfectants safely.

Always read label and product information before use.
