### Intelli-Mixer<sup>™</sup> RM-2

#### it's a class by itself

Powered by V-Spin – the world's most advanced, patented mixing and liquid-handling technology – the Intelli-Mixer RM-2 is truly the latest in cutting-edge science. V-spin harnesses the energy of an unequaled stepper motor, allowing for a wide variety of mixing, vibrating, and rotating cycles. This multipurpose unit is a rotator, vortex mixer, and blotter all in one. Designed to be cold room safe, and with an unprecedented 34 modes of operation, this versatile piece is unrivaled in today's market.

#### 3 custom modes

- Equipped with 3 custom programs, The Intelli-Mixer allows for any combination of mixing, rotating, and pausing to be configured.
- ► Designing your own customized routine is as easy as holding the rack in your hand and then rotating it in any direction and at any angle.
- ► Every move is saved in the memory for future use.

# The state-of-the-art Intelli-Mixer is equipped to perform each and every type of test tube mixing with brilliant efficiency. This versatile unit comes standard with a

15 mixing

modes

- This versatile unit comes standard with a mixed test tube rack, supporting 0.5 to 50 ml test tubes. Additionally, 3 optional racklengths are available, along with an assortment of accessories to satisfy your specific lab needs.
- ► Outfitted with 2 vortex frequencies, this powerful mixer is capable of simultaneously vortex-mixing up to 42 Eppendorf tubes.

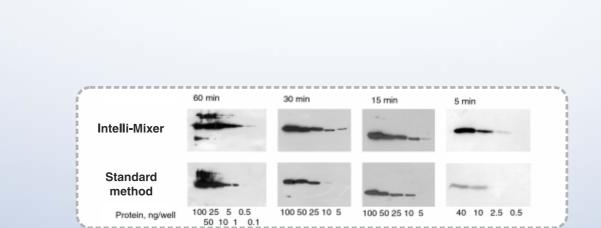

## 4 Blotting

- ► The Intelli-Mixer's ultrasonic, vibration blotting modes are specifically designed for western blot protocol.
- Rigorously tested, this blotting method has consistently excelled in the following areas: sensitivity – shown to be up to 20 times more sensitive;

**speed** – 3 to 5 times faster;

**specificity** – up to 4 times less likely to have cross-reactivity;

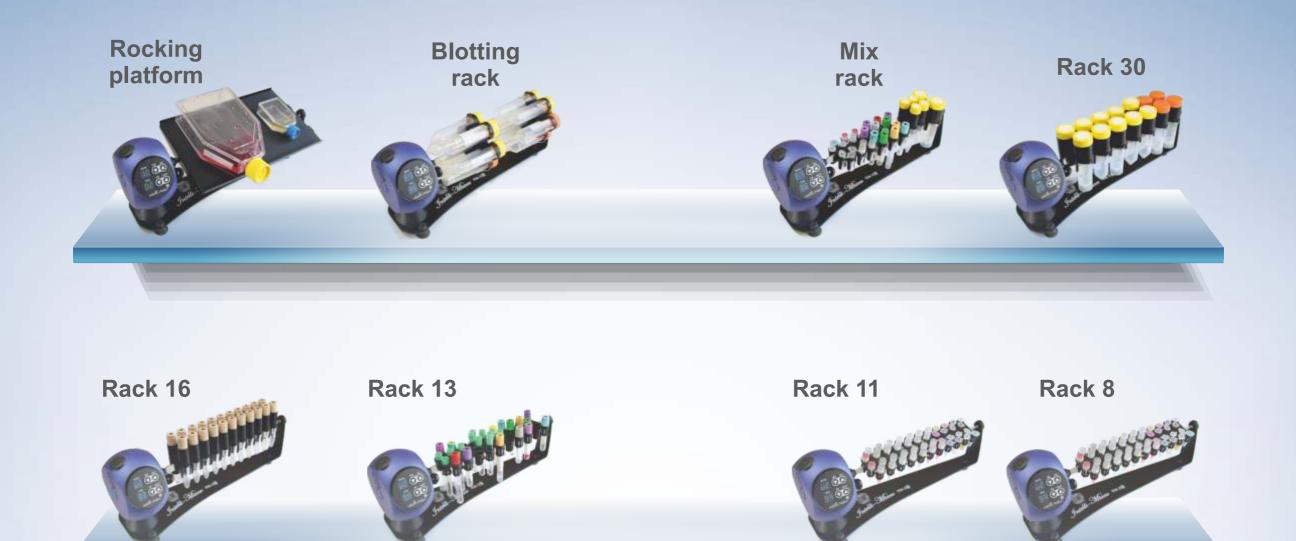

**savings** – up to 12 times less likely to require the use of reagents.

#### 12 Rocking modes

- ► The Intelli-Mixer's powerful motor drive combined with the thoughtfully designed rocking program ensure a consistently reliable, high performance in all 12 applications.
- ► Its speed controller automatically alternates between RPM and Shakes Per Minute to guarantee precise control and reproduction.
- ► The innovative design of the rocking platform, with antislip surface, provides ample room for a variety of samples while insuring no turnover even in the event of a power outage.
