 - Outdoor application.
- **Risk management measures**
- **Worker protection**
- **Organisational protective measures**
 - Keep good industrial hygiene.
 - Ensure that activities are executed by specialists or authorised personnel only.
 - Ensure good ventilation. This can be achieved by using a local exhaustion or general exhaust system. If these measures are insufficient to keep the solvent vapour concentration below the workplace limit, wear an adequate respiratory protective device.
 - The appropriate type of chemical protective glove has to be selected specifically, depending on the concentration and quantity of hazardous substances in the workplace.
 - Provide sufficient washing facilities.
 - Persons, who tend to skin diseases or other hypersensitivity reactions of the skin, should not handle the product.
